The International Symposium on Aviation Psychology is offered for the purposes of:

- presenting the latest research on human performance problems and opportunities within aviation systems;
- envisioning design solutions that best utilize human capabilities for creating safe and efficient aviation systems;
- and bringing together scientists, research sponsors, and operators in an effort to bridge the gap between research and application.

Although the symposium is aerospace oriented, we welcome anyone with basic or applied interests in any domain to the extent that generalizations from or to the aviation domain are relevant.

**Featured Speakers**

**Dr. Neville Stanton**  
University of Southampton

**Dr. William R. Ercoline**  
Wyle

**Dr. Art Kramer**  
Beckman Institute for Advanced Science & Technology  
University of Illinois

Proposal Submission: October 5, 2014  
Paper Submission: March 1, 2015  
Early Registration ends March 20, 2015
